Pack Program Gets Grant

BROOKLYN, N.Y.—Three operating companies of Philip Morris Industrial recently gave a $7,500 grant to support Pratt Institute's graduate program in creative packaging.

The three companies contributing to the grant are Milprint, Inc., Nicolet Paper Co., and Polymer Industries, Inc.

"To us the grant signifies that Philip Morris Industrial's companies share our concern for the serious 'people gap' developing in the packaging field," said Dr. James B. Donovan, president of Pratt.
